

Application::run

```
graph LR; A[Application::run] --> B[Application::shutdown]
```

A flow diagram consisting of two rectangular boxes connected by a blue arrow. The first box on the left is white with a black border and contains the text 'Application::run'. A blue arrow points from the right side of this box to the left side of the second box. The second box on the right is gray with a black border and contains the text 'Application::shutdown'.

Application::shutdown
